SECTION II - ASPHALT PAVING AND COLD PLANING REQUIREMENTS

Scope: The work covered by this item shall consist of the repaving, crack sealing, and cold planing of existing streets. Surface preparation work will be covered in each section. The Town will authorize preparation work in advance by Public Works Director. The listed quantities and roadway list are estimates of work that may be performed. The actual amount of work to be performed will be based on the annual budgetary constraints of the Town.

The Town will provide a list of proposed streets to be paved (see page 10) and reserves the right to amend the list, as an increase or decrease to the estimated work listed. The Town will be limited to the amount of paving by budgetary restraints. The Town requires the contractor to start and continuously (normal Monday through Friday standard business hours) work the finalized list until completed. The list is subject to change upon written notification from the Town. Any additional significant increase or decrease in work will be rescheduled. After completion of the list the Town requires the contractor to return within 2 weeks after written notice to perform any additional work from the original list. If the contractor is unable to comply with these conditions this would breach the contract.

1. The price quoted for asphalt concrete surface and binder material shall include all materials, equipment, labor, and all other items incidental to the placement and compaction of the said asphalt concrete materials. Placement operations shall be as directed by the designated official of the Town of Smyrna and shall include patching and repair of designated areas. This price shall include all surface preparation by grading to achieve proper drainage, all cleaning placement of shoulder stone where instructed by the Town, furnishing and placing tack coat and disposal of excess materials.

The Town of Smyrna will furnish all crushed stone for shoulders, adjust all manholes, inlets and other castings necessary for asphalt concrete placement.

2. No bidder may withdraw a bid for a period of ninety (90) days after bids have been opened.
3. The right is reserved to reject any and all bids and to waive all technicalities in doing so.
4. Bidder's name and license number must be placed on the envelope containing his proposal, otherwise the bid will not be opened. All Bidders must be licensed Contractors in the State of Tennessee in strict accordance with State regulations. All bidders shall comply with the Tennessee Contractor' License law Section 62-6-119 (Bid documents - Required disclosure by bidders) when submitting bids. Please refer to the State Licensing Board <http://www.tn.gov/regboards/contractors/law.shtml> for all applicable licensing laws.
5. **ERROR IN BID** - in case of error in the extension of prices in the bid, the unit price will govern. No bid shall be altered, amended, or withdrawn after specified time for opening bids. Negligence on the part of the bidder in preparing the bid confers no right for the withdrawal of the bid after it has been opened.
6. **INSPECTION** - Final inspection and acceptance or rejection will be made at a delivery destination, but all materials and all workmanship shall be subject to inspection and test at all times and places, and when practicable, during construction. The right is reserved to reject articles which contain defective material and workmanship. Rejected materials shall be removed by and at the expense of the contractor promptly after notification or rejection. Final inspection and acceptance or rejection of the materials shall be made as promptly as practicable, but impose no liability on the Town of Smyrna or any subdivision thereof for such materials as are not in accordance with the specifications. Final inspection or acceptance does not relieve the contractor from liability for use of materials or construction standards as are not in accordance with the specifications or industry practices. In the event

necessity requires the use of materials or supplies not conforming to the specifications, payment therefore may be made at a proper reduction price.

All mixes will require job mix formula per TDOT specifications. Trucks may be pulled and weighed at random.

7. SPECIFICATIONS - it is understood that reference to available specifications shall be sufficient to make the terms of such specifications binding on the contractor.
8. Rental on equipment, Section V, will be paid for only when the equipment is running and is in use.
9. Quantities of pavement and time on equipment may vary and may be determined by the Town.
10. PERFORMANCE AND OTHER BONDS - CONTRACTOR shall furnish performance and payment Bonds, each in an amount at least equal to the Contract Price as security for the faithful performance and payment of all CONTRACTOR'S obligations under the Contract Documents. These Bonds shall remain in effect at least until one year after the date when final payment becomes due, except as otherwise provided by Law or Regulation or by the Contract Documents. All bonds signed by an agent must be accompanied by a certified copy of the authority to act. If the surety on any Bond furnished by CONTRACTOR is declared a bankrupt or becomes insolvent or its right to do business is terminated in any state where any part of the Project is located or it ceases to meet the requirements of the preceding paragraph. CONTRACTOR shall within five days thereafter substitute another Bond and Surety, both of which must be acceptable to the TOWN.
11. TERM - The term shall be for 12 months from the date of contract execution. Upon mutual agreement of both parties the bid quotes may be renewed by the Town of Smyrna for two additional 12 month periods.
12. ADJUSTMENTS TO CONTRACT UNIT PRICES

This Special Provision Covers The Method Of Price Adjustment For Bituminous Materials.

The normal bid items in the contract covering the bituminous material shall remain the same, but the contract unit bid prices for these items will be adjusted to compensate for increases and decreases in the contractor's bituminous material cost in the following manner:

A "Basic Bituminous Material Index" will be established by the Tennessee Department of Transportation prior to the time the bids are opened. This "Basic Bituminous Material Index" is the average of the current quotations on P.G. 64-22 from suppliers furnishing asphalt cement to contractors in the State of Tennessee. These quotations are the cost per ton f.o.b. supplier's terminal.

The "Basic Bituminous Material Index" for this project is \$ 479.50 per ton for April 2015.

The "Monthly Bituminous Material Index" is also established on the first day of each month by the same method. The "Monthly Bituminous Adjustment Factor" is the difference (+/-) between the "Basic Bituminous Material Index" and the "Monthly Bituminous Material Index".

The "Monthly Bituminous Adjustment Factor" shall be applied to the contract unit price bid provided the increase or decrease differs 5% or more from the "Basic Bituminous Material Index".

The Public Works Director reserves the right to alter the quantities of material or modify the design if the change in prices warrants material or design substitution.

The adjustment will be calculated in accordance with the following formula only when the percent change of price indexes is five or greater:

$$PA = [Ic - Ib] \times T$$

Where,

PA = Price Adjustment for Adjustment Month

Ib = Basic Bituminous Material Index

Ic = Monthly Bituminous Material Index

T = Tons bituminous material for Adjustment Month

Price adjustment will be applied to all asphalt cement, asphalt emulsion, or bituminous material used for paving on this project.

The quantity of virgin asphalt cement in tons subject to price adjustment in recycled mixes shall be the product of the total tons of each mix multiplied by the difference between (1) the percent of asphalt cement specified for bidding purposes and (2) the percent of asphalt cement obtained from the recycled asphaltic material used in each mix. No price adjustment under this special provision for increases and decreases in the contractor's cost for virgin asphalt cement in recycled mixes will be allowed for asphalt cement content in excess of the percent specified for bidding purposes, as all payment adjustments for asphalt cement in the mix design of recycled mixes in excess of the percent of asphalt cement specified for bidding purposes will be made in accordance with the specifications.

The price adjustment for increases and decreases in the contractor's cost for virgin asphalt cement in recycled mixes will be calculated as follows when the percent change in price indexes is five or greater:

$$PA = [Ic - Ib] \times [BA - RA] \times Tm \\ 100$$

Where,

PA = Price Adjustment for Adjustment Month

Ib = Basic Bituminous Material Index

Ic = Monthly Bituminous Material Index

BA = Percent asphalt specified for bidding purposes

RA = Percent asphalt obtained from recycled asphaltic material used in each mix

Tm = Tons asphalt mix for adjustment month

The above procedure for calculating price adjustments for recycled mixes is also applicable to mixes consisting of one hundred percent virgin material when the asphalt cement is not a separate bid item and the asphalt content in each mix is established for bidding purposes. A totally virgin mix is a special case in which the percent of asphalt obtained from recycled asphaltic material is zero (i.e., RA = 0).

The maximum allowable of recycled materials is 20%.

13. SMYRNA BUSINESS LICENSE - Subject to the exceptions enumerated hereinafter, persons subject to the Smyrna Business Tax operating from an established place of business in one county who extend their operations into other counties and/or municipalities without establishing an office, headquarters or other place of business therein shall not be subject to the Smyrna Business Tax in such other counties and/or municipalities. Tax on total receipts from all taxable sales shall be due to the county and municipality, if any, in which the established place of business is located. A new business license is \$20.00. If applicable, at license expiration, renewal is a percentage of the business total gross.

Excepted from the rule as stated in above paragraph are:

- (a) Persons with no established place of business in this state.
- (b) Contractors with taxable receipts of \$50,000 and out of state contractors.
