ROAD PROJECT UPDATES

INTELLIGENT TRAFFIC SYSTEM PHASES 1 AND 2
Project is approved and funding allocated from FHWA, TDOT, and Town of Smyrna to link traffic lights along Sam Ridley, Nissan Drive, parts of Enon Springs, parts of Rock Springs, and parts of Lowry Street to a central Traffic Operations Center at Town Hall. The notice to proceed to construction has been received from TDOT.

INTELLIGENT TRAFFIC SYSTEM PHASES 3, 4, AND 5
Project is approved and funding allocated from FHWA and TDOT to link traffic lights along Lee Victory, Almaville Road, Old Nashville Highway, parts of Enon Springs, and parts of Lowry Street to a central Traffic Operations Center at Town Hall to be constructed under Phases 1 and 2. Currently we are working on utility certifications.

ENON SPRINGS ROAD WEST EXTENSION
The Town of Smyrna is providing funding to connect Enon Springs at Old Nashville Highway to Rocky Fork at the bridge over I-24. This project is currently under construction. Substantial completion is anticipated by July 2020.

SAM RIDLEY PARKWAY ROAD WIDENING
Project is approved and funding allocated from TDOT, FHWA, and the Town to widen Sam Ridley Parkway to 3 lanes in each direction from I-24 to Old Nashville Highway. This project is currently under construction. Substantial completion is anticipated by October 2021.

NOLAN DRIVE RELOCATION
This project will provide better traffic flow between Sam Ridley Parkway and Lowry Street and will allow for future expansion of the Lee Victory Recreation Park. Substantial completion has been reached with landscaping anticipated in October 2020.

SAM RIDLEY PARKWAY AT OLD NASHVILLE HIGHWAY
The Town’s engineering consulting firm has completed the environmental investigation and the design engineering phase has started to determine the additional turn lanes needed for this project.

WASHINGTON STREET PEDESTRIAN CROSSING
The Town, TDOT, and CSX are working together on a project to safely link pedestrian traffic between Lowry Street and Front Street. This project will add sidewalks to each side of Washington Street and pedestrian gate arms at the railroad crossing. The environmental investigation is complete and construction plans are being designed.

GENIE LANE EXTENSION
This project will provide a link between Potomac Place and Wolverine Trial. The design and ROW phase is underway.

JEFFERSON PIKE (SR-266) WIDENING
TDOT has set a bid opening date of October 9, 2020 for the project.

IMPROVEMENTS TO EXITS 66 & 70 ON I-24
Preliminary redesign of the ramps and intersections is underway by TDOT.
